PROJECTS

Social Media Application

<https://github.com/HemanthKalyanNHegade/soacial-media>

- A feature-rich full stack MERN (MongoDB, Express, React, Node.js) application showcasing strong proficiency in modern web technologies.
- Key highlights include: JWT authentication, likes functionality and dark mode.

Reassembly of fragmented images using image stitching(FINAL YEAR PROJECT)

- Building an Image Stitching System that can repair shredded papers or old, damaged images. CNN is used for image stitching and GANs are used for in-painting the stitched image.

Online House Rental System

<https://github.com/HemanthKalyanNHegade/Rent-Right-Now>

- This MySQL project is a House rental system that allows registered users to rent a house by making a payment. This system keeps record of owners, tenants and the duration of rent.

TextUtils - A text editor

<https://github.com/HemanthKalyanNHegade/TextUtils>

- A versatile text editor built with React, offering a responsive and user-friendly interface for seamless text editing experiences.

Other Projects - IdeaLog(A note making MERN app), **BirderAI**(Audio based Bird's recognition),**Modelling a building in VR**,**Add To Cart**(Javascript+Firebase)

CERTIFICATIONS

- Introduction to AWS 101
- 2 DAC scholarships
